

Total Joint Replacement – How It Works

Tuesday, May 25 • 6:30 to 7:30 p.m.
Moneta Library, 13641 Moneta Road, Moneta

Did you know hip replacement surgery was developed in the 1960s? The earliest efforts to replace joints started at the turn of the last century. While total joint replacement has been around for decades, the quality and progression in technology has improved beyond measure! Join H.C. Eschenroeder Jr., M.D., with the Orthopaedic Center of Central Virginia, as he discusses the history and advancements of total joint replacement. Learn how joint replacements began, are being completed today and what joint replacement could mean for you.
